

Development Assistant (m/f/d)

VELOMAT Messelektronik GmbH, based in Kamenz, is a medium-sized company. For more than 30 years, we have been a point of contact when it comes to specialised issues relating to measurement electronics and sensor technology. We supply national and international customers and also offer customised solutions, which we can realise from prototype to series production thanks to our in-house development and production.

Your tasks

- Creation of parts lists and work plans
- Creation of production documents and test instructions
- Creation, maintenance and servicing of VELOMAT test equipment and programmes
- Contributing to the creation of data sheets and documentation
- Setting up test systems
- Carrying out assembly tests and system tests
- Calibration of sensors and systems at VELOMAT and at our customers' premises

What you bring with you

- Completed training as a technician in the fields of electrical engineering, electronics or mechanical engineering
- Good language skills in German and English
- Knowledge of reading circuit diagrams
- Experience in working with CAD and ERP systems
- Experience in prototyping electronic components

You can expect

- Varied activities and thorough familiarisation
- Responsibility and interesting tasks
- Professional and personal development opportunities
- Permanent employment contract
- No shift or weekend work
- Attractive salary
- Performance-related bonus payments (2 x per year)
- Company pension scheme
