

Employee Quality Assurance (m/f/d)

VELOMAT Messelektronik GmbH, based in Kamenz, is a medium-sized company. For over 30 years, we have been your contact for specialised questions relating to measurement electronics and sensor technology. We supply national and international customers and also offer customer-specific solutions, which we can realise through our in-house development and production from prototype to series production.

Your tasks

- Recognising and reporting work errors and quality defects
- Supporting complaints and repair processes
- Supply of components in need of repair to the workshop and their return
- Monitoring measuring equipment
- Carrying out troubleshooting and minor repairs
- Maintaining and updating complaint reports
- Managing electrical equipment testing in accordance with BGV A3/DGUV V3
- Creating maintenance plans for the entire machine park
- Independently realising and documenting various electrical measurements

What you bring with you

- Completed training in the field of electrics, electronics, mechatronics or a comparable qualification
- Experience in device technology / operating technology or system technology desirable
- Knowledge of electrical measurement technology
- At best, professional experience in quality assurance and type testing in the field of electronics and software
- Affinity for software applications and electronic device hardware

You can expect

- Varied activities and thorough familiarisation
- Responsibility and interesting tasks
- Professional and personal development opportunities
- Permanent employment contract
- No shift or weekend work
- Performance-related bonus payments (2 x per year)
- Company pension scheme
